**DESCRIPTION OF BUILDING PRODUCT**

Airco Brands supplies open, blind and flange rivets under the Otter brand. They are supplied in different finishes which determines the application; interior or exterior. Otter rivets provide holding power from 670 – 5340 N in both open and sealed jointed systems.

Steel rivets are only suitable for interior uses and are compatible with zinc/alum alloy, aluminium extrusions and galvanised steel.

Aluminium or 316 stainless-steel rivets should be used for exterior applications and may be used for interior.

Aluminium rivets are compatible with zinc/alum alloy, aluminium extrusions and galvanised steel.

316 Stainless steel rivets are compatible with stainless steel, copper and brass and may be used in all environments.

Airco Brands supply Otter Colorbond® rivets which are supplied in different colour options for use where colour matching is required.

Products covered by this BPIR are identified with the prefix RVC, RVKIT, RVLF, RVLM, RVOB, RVOA, RVOS, RVSA

---

## CONTRIBUTION TO BUILDING WORK CODE OBLIGATIONS

Otter Rivets comply with the following building code clauses:

| Clause                                                           | Evidence                                                                                                                                                                                                                                                     |
|------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| B1 (Structure)<br>B1.3.1, B1.3.2<br>B1.3.3 (b, f, h, i, j, m, q) | Section 4, NZS3604:2011, table 4.1 defines coating requirements for structural fixings for given environments.<br>Table 4.3 defines coating requirements for non-structural fixings.<br>Use of Otter rivets are to be in accordance with these requirements. |
| B2 (Durability)<br>B2.3.1 (a, b)                                 |                                                                                                                                                                                                                                                              |
| F2 (Hazardous Building Materials)<br>F2.3.1                      |                                                                                                                                                                                                                                                              |

---

## FOR FURTHER INFORMATION

Otter rivets must be used in accordance with all information supplied by Airco Brands Pty Ltd. For supporting information refer to [www.OtterNZ.co.nz](http://www.OtterNZ.co.nz).

---

## RESPONSIBLE PERSON

In accordance with Regulation 8, as the responsible person, I confirm that the information supplied in this declaration is based on information supplied to the company as well as the company's processes and is, therefore, to the best of my knowledge, correct.

I can also confirm Otter rivets, as referred to in this statement, are not subject to a warning or ban under s26 of the Building Act.
